

/ DESIGN BUILD MAINTAIN

The right components
for tomorrow's **success.**

WHY CHOOSE FARNELL?

Find the right combination of solutions – from product lifecycle to operations – for your designing, building and maintaining needs.

Our suppliers

A wide range of suppliers for you to design with confidence.

ACCESS ASSEMBLE ASPIRE

ACCESS

To power your success, we provide 24/7 access to the products you need, a wide selection of services, and dedicated customer support every step of the way.

- Over 950,000 products in stock
- Over 2,000 leading suppliers
- Fast & reliable delivery
- Online technical support 24/5
- Fast growing Industrial product range

ASSEMBLE

We understand the magnitude of successfully completing your projects and driving innovation. Therefore, we are committed to helping you assemble everything you need to bring your vision to life.

- Dedicated customer service team supporting you via online chat, email, phone or in person
- Technical resources library with articles, white papers, video tutorials, podcast, and more
- Fast & reliable delivery
- Fast quoting and online quotes
- eProc tools for efficient ordering and spend management journey

ASPIRE

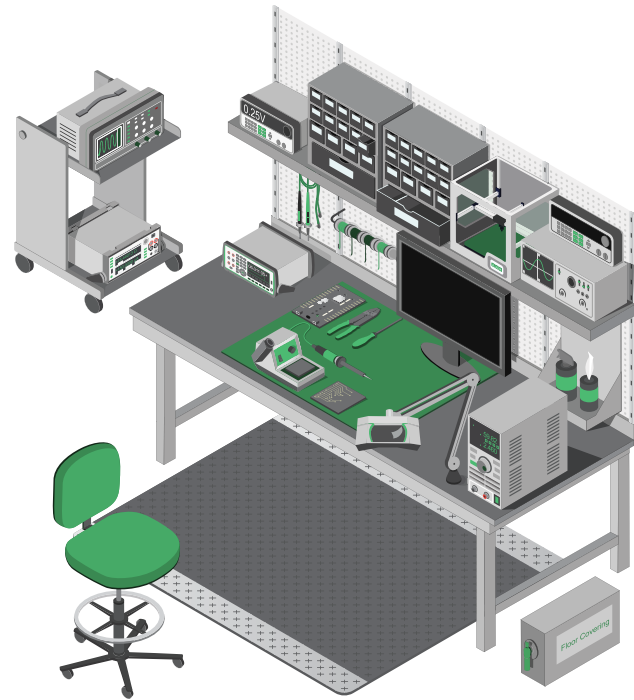

With Farnell by your side, aspire to achieve new frontiers and innovate like never before.

- Expert advice, courses, and trainings
- 5,000+ new products added monthly on average
- By ordering from Farnell, you are helping the environment, people, and the planet
- Over 850,000 members of element14 Community to connect to, exchange ideas, and share vision

DESIGN

Getting products to market faster is essential to maintaining a competitive advantage.

To help streamline the design process, we carry the essential components that developers need to complete design from design to prototype

BUILD

Find the right combination of components for your unique needs all in one place.

Our expansive supplier network also gives us access to hard-to-find products, along with custom products, saving you the time and cost of resourcing options on your own.
